

# Miami Christian School

## Exceptional Student Education Program

Our clinical high school program offers an individualized curriculum for students diagnosed with a Specific Learning Disability, ADHD, and Asperger's Syndrome. We are a fully accredited private school and prepare our students to obtain a standard high school diploma.

### Our Mission

The mission of  
Miami Christian  
Exceptional Student Education Program  
is to prepare high school students with learning disorders  
to obtain a standard high school diploma  
in a supportive and nurturing Christian environment  
that will empower them to become responsible and  
productive members of their community

### The Success Plan

- Our program implements scientifically researched programs proven effective in teaching students with mild learning disorders.
- Small class instruction
- Our school offers a wide variety electives and extra-curricular classes
- Student's academic, social, and emotional needs are addressed by providing an understanding and nurturing environment, character education, and strong collaboration with our families.
- Students are given the opportunity to receive their education in a regular school environment.
- Data from educational assessment is used to develop academic goals and objectives for the Individualized Education Plan (IEP). The IEP is updated regularly.
